G

Surveyed, Office
Mount Sterling Oct 20th 1818.
The several Land Districts are bounded by dotted lines except along navigable streams

F.R. Conway
Surveyor of the Public Lands
in the State of Illinois and Missouri

NOTE.

1st The Townships, in which according to paragraph E. of report of this date, subdivisions appear still to be wanting, are marked ▪ on this diagram.

2nd The plats of Townships, which according to paragraph G. are enlivered in the first Class, and should be recorded, are marked ▪ on this diagram. The Townships without this mark belong to the second Class, and the plats thereof, are considered as recorded.

3d Paragraph E. of report. The space in the northern part of the diagram, which is surrounded by the black shade ____ embraces the Townships, the record of field notes of which, may be dispensed with. The Townships in the whole State, South of that shade, are those in which the record of field notes is necessary.
